Note: Not all the qualities listed in "The Meanings of the Names of Our Lord" have remedies listed with the quality. The names from this book differ from the names listed and in spelling from those in "Children Around the Table Of Allah". I could not list all the qualities without having more than 99 so this list is composed of all the qualities with remedies and other qualities from both books. I also listed names together that seemed very similar even though this is not the same order as they were given in the books.
